Mind welcomes new NDIS psychosocial disability stream

Mind welcomes the Commonwealth Government's announcement of a new psychosocial disability stream for the National Disability Insurance Scheme.

People with psychosocial disability are in urgent need of improved support from the NDIS and we hope a rapid implementation of this commitment will be possible to meet the needs of not only people with psychosocial disability but also their families and carers.

We acknowledge the hard work of the many individuals and groups that have raised awareness of the support needs of people with psychosocial disability and contributed to developing solutions.
